LADDER BARS/LADDER RACKS

Popular with tradesmen these 76mm polished alloy ladder bars come standard rear removable and have ladder pins welded at 900mm centres. Practical and appealing to the eye with tight radius mandrel bends these are a tradies "must have" addition to any ute. Options available include: rabbit ear loops or plain top, powder coated or mill (unpolished) alloy. Available in 100mm diameter.

WR76POL
- Suit FG Falcon Ute

WIDE RAX

With ladder pins welded at 1350mm centres, these 'Wide rax' are great if you need the extra width up top. Rear removable and styled to follow the shape of the cab when viewed from both the rear and the side. Options available include: powder coated or mill (unpolished) alloy. Width can be made to specific requirements as needed.

- Suit FG Falcon Ute

SBC76POL
- Suit FG Falcon Ute

SPORTS BAR COMBO

Sports bar combos are based on standard ladder racks with the addition of an extra double loop piece to give the sports bar look. The rear bar, as always, is removable and cabin clearance is maintained. Sports bar combos are standard with ladder pins. Options available include: rabbit ear loops, powder coated or mill (unpolished) alloy. Can be ordered without the rear bar (ie sports bar only). Height can be trimmed to cabin height if requested.

TRAY BARS & ALLOY ROOF RACKS

The FG Falcon trays have not been overlooked. Tray bars are available in 76mm polished alloy or mill (unpolished) alloy. Standard ladder pins are at 1220mm centres. Alloy roof racks are available from 2.1m to 3.0m in 300mm increments for all utes and trays. These are manufactured from 40mm diameter mill finish aluminium and are built to last. Recommended sizes:

- Dual cab utes - 2.1 x 1.26 inside width
- Single cab trays - 2.7 or 3.0 x 1.36 inside width
- Commodore/Falcon Ute - 2.4 x 1.26 inside width

TB76MILL
- Suit FG Falcon Tray
